CONTENTS

LEMMON, V., AND D. I. GOTTLIEB: Monoclonal Antibodies Selective for the Inner Portion of the Chick Retina 531

NASHNER, L. M., P. O. BLACK, AND C. WALL, III: Adaptation to Altered Support and Visual Conditions during Stance: Patients with Vestibular Deficits 536

FORSBERG, H., AND L. M. NASHNER: Ontogenetic Development of Postural Control in Man: Adaptation to Altered Support and Visual Conditions during Stance 545

NEAR, J. A., AND H. R. MAHLEN: Low Affinity, Adenosine 5'-Triphosphate-dependent [3H]Dopamine Binding in Synaptic Membranes from Bovine Caudate Is Unrelated to Dopamine-stimulated Adenylate Cyclase 553

HAHN, E. F., M. CARROLL-BUATTI, AND G. W. PASTERNAK: Irreversible Opiate Agonists and Antagonists: The 14-Hydroxydihydromorphinone Azines 572

BRUNSO-BECHTOLD, J. K., AND V. A. CASAGRANDE: Early Postnatal Development of Laminar Characteristics in the Dorsal Lateral Geniculate Nucleus of the Tree Shrew 589

WILLIAMS, R. W., AND L. M. CHALUPA: Prenatal Development of Retinocollicular Projections in the Cat: An Anterograde Tracer Transport Study 604

SCHAFFNER, A. E., AND M. P. DANIELS: Conditioned Medium from Cultures of Embryonic Neurons Contains a High Molecular Weight Factor Which Induces Acetylcholine Receptor Aggregation on Cultured Myotubes 623

BORGES, L. F., AND R. L. SIDMAN: Axonal Transport of Lectins in the Peripheral Nervous System 647
