Cover picture: Confocal pseudocolored images of cultured spinal cord astrocytes obtained from Cx43 knock-out mice illustrating the propagation of intercellular calcium wave. Cells were loaded with the calcium indicator Indo-1 AM and imaged using a Nikon real time confocal microscope (RCM-8000). The pseudocolors represent a range of ratiometrically determined changes in calcium levels from resting (green-yellow) to high levels (bright red). The images were acquired at 1 sec intervals after a single cell in the field was mechanically stimulated (arrow). For details, see the article by Scemes et al., in this issue (pages 1435–1445).

Correction: In the article “Xenopus Embryonic Spinal Neurons Express Potassium Channel Kvß Subunits,” by M. A. Lazaroff, A. D. Hofmann, and A. B. Ribera, which appeared on pages 10706–10715 of the December 15, 1999 issue, in Table 2, $G_{\text{max}} ($m$\text{s})$ should read $G_{\text{max}} ($\mu$S).

Persons interested in becoming members of the Society for Neuroscience should contact the Membership Department, Society for Neuroscience, 11 Dupont Circle, NW, Suite 500, Washington, DC 20036, phone 202-462-6688.

Instructions for Authors appear at the end of the January 1, 2000 issue. Copies of the Instructions can be obtained by writing to The Journal of Neuroscience, Society for Neuroscience, 11 Dupont Circle, NW, Suite 500, Washington, DC 20036, phone 202-462-6688, fax 202-462-1547, e-mail jn@sfn.org. The Instructions are also available via Internet (http://www.jneurosci.org/misc/itoa.shtml). Rapid Communications Instructions for Authors appear at the end of the January 15, 1999 issue and are also available via Internet (http://www.sfn.org/RapidComm/ila.html). Submissions should be sent to the above address. Scientific inquiries concerning manuscripts can be made directly to Dr. Gordon M. Shepherd, Editor-in-Chief, The Journal of Neuroscience, Section of Neurobiology, Yale University School of Medicine, 333 Cedar Street, New Haven, CT 06510, phone 203-785-4336, fax 203-785-6990, e-mail jneurosci@yale.edu.

The Journal of Neuroscience requests that authors send a disk containing an electronic file of their manuscript with each submission. Most word processing software can be used; see the Instructions for Authors for detailed guidelines on acceptable disk and file formats.
