Cover picture: Color plot of dopamine release oscillations on a millisecond timescale from the nucleus accumbens of a freely moving rat, obtained after injection of a cannabinoid agonist administered at a dose that promotes burst firing of dopaminergic neurons. The pseudocolor scale indicates oxidation (green) and reduction (black) currents at potentials (y-axis) specific to dopamine at the surface of a carbon-fiber microelectrode plotted against time (x-axis). Subsecond time resolution of release events was achieved using fast-scan cyclic voltammetry. For details, see the article by Cheer et al. in this issue (pages 4393–4400).

Erratum: In the article “Arthropod 5-HT Receptors: A Neurohormonal Receptor in Decapod Crustaceans That Displays Agonist Independent Activity Resulting from an Evolutionary Alteration to the DRY Motif,” by Merry C. Clark, Timothy E. Dever, John J. Dever, Ping Xu, Vincent Rehder, Maria A. Sosa, and Deborah J. Baro, which appeared on pages 3421–3435 of the March 31, 2004 issue, errors in Tables 1 and 2 were introduced by the printer. The correct version of each table is printed in this issue.

Correction: In the article “Critical Role for DP5/Harakiri, a Bcl-2 Homology Domain 3-Only Bcl-2 Family Member, in Axotomy-Induced Neuronal Cell Death,” which appeared on pages 3721–3725 of the April 14, 2004 issue, the name of an author was spelled incorrectly. The sixth author’s name should have read Andrew P. Lieberman.

Persons interested in becoming members of the Society for Neuroscience should contact the Membership Department, Society for Neuroscience, 11 Dupont Circle, NW, Suite 500, Washington, DC 20036, phone 202-462-6688.

Instructions for Authors are available at http://www.jneurosci.org/misc/itoa.shtml. Authors should refer to these Instructions online for recent changes that are made periodically.

Brief Communications Instructions for Authors are available via Internet (http://www.sfn.org/content/Publications/TheJournalofNeuroscience/BriefComm/ifa.html).

Submissions should be submitted online using the following url: http://sfn.manuscriptcentral.com. Please contact the Central Office, via phone, fax, or e-mail with any questions. Our contact information is as follows: phone, 202-462-6688; fax, 202-462-1547; e-mail, jn@sfn.org.
