Are you only scratching the surface?

If you are using any other method for ad libitum food intake measurements you are only scratching the surface. The BioDAQ Food & Water Intake Monitor records the native episodic intake behavior of rats and mice at very high resolution in their home cage. Discover the time and date of the initiation of feeding and drinking behavior, how much was consumed, and the period of the feeding or drinking activity.

The Fulbright Program is sponsored by the United States Department of State, Bureau of Educational and Cultural Affairs. For more information, visit fulbright.state.gov.

ASSISTANT PROFESSOR (UTL)
Stanford Center for Sleep Sciences and Medicine
Psychiatry and Behavioral Sciences

The Stanford Center for Sleep Sciences and Medicine and Department of Psychiatry & Behavioral Sciences are searching for a researcher focusing on the genetics of sleep or sleep disorders, to be appointed at the Assistant Professor level in the University Tenure Line (UTL). The overriding requirement for faculty appointment, reappointment and promotion within the UTL must be the promise of distinguished performance. There should be a major commitment to research and teaching. There must be outstanding accomplishments in research and excellent overall performance in teaching, as well as in clinical care and institutional service appropriate to the programmatic need the individual is expected to fulfill. The Stanford University School of Medicine is one of the nation’s leading academic and research institutions.

We seek an outstanding geneticist, neuroscientist, clinician, and/or molecular biologist that use state-of-the-art genetic approaches to study the neurobiology and genetics of sleep and sleep disorders. Secondary departmental affiliations are flexible and will be tailored for the successful candidate.

Applicants must have a medical degree or equivalent degree; or a Doctor of Philosophy or equivalent degree. Candidates should have significant research training and a demonstrated track record in empirical research.

Interested candidates are encouraged to apply for this position by submitting a curriculum vitae, a statement of research interests and 3 reference letters to Emmanuel Mignot, M.D., Ph.D., 701B Welch Road, First Floor, Palo Alto, CA 94304 with electronic copy of the letter and curriculum vitae to jck@stanford.edu.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women and members of minority groups, as well as others who would bring additional dimensions to the university’s research and teaching missions.

The #1 Cited Journal in Neuroscience

The #1 Cited Journal in Neuroscience*

Read The Journal of Neuroscience every week to keep up on what’s happening in the field.
• The number one cited journal in neuroscience
• The most neuroscience articles published each year — nearly 1,500 in 2008
• Impact factor 7.452
• Published 50 times a year
