

RELAX. YOU'VE GOT ENDNOTE X4.

Take a deep breath and **RELAX** while Thomson Reuters EndNote is hard at work connecting you to high quality resources, simplifying your collaboration with colleagues and removing the reference stress from all your research projects.

For efficiently gathering references and full text, no other solution delivers the rich support found in EndNote X4. Simply point EndNote toward your PDF files and folders to create new references without typing or searching. Or, let EndNote save you time locating and attaching full text PDF files for your existing references. Either way you'll have more time on your hands.

With the Web you can share EndNote reference groups and even manage your personal publication list for the free ResearcherID author community. Imagine a simple way to present your work publicly along with citation metrics delivered by the Web of Knowledge.SM

Learn about more new features in EndNote X4. You just can't **RELAX** without it.

THOMSON REUTERS

Head of Department of Anatomy and Neurobiology

Washington University School of Medicine in St. Louis invites applications for a tenured faculty position to become the Head of the Department of Anatomy and Neurobiology. We are seeking an academic leader with a PhD and/or MD and training in neurobiology and related fields. The successful candidate is expected to have an internationally distinguished record in research and teaching. Experience with administration and program development will be very helpful. Excellent interpersonal skills as well as a strong vision to further departmental development will be critical. The candidate should have demonstrated ability to work cooperatively and collegially within a diverse environment. Additional information about the department is available at: <http://thalamus.wustl.edu>. The Department Head will be responsible for continued growth of the department through the recruitment of new faculty.

Contact: Interested candidates should send their curriculum vitae, statement of interest and three references to: Adelaide Donnelly, Washington University School of Medicine, Campus Box 8222, 660 S. Euclid Ave., St. Louis, MO 63110, USA; or via e-mail to: donnella@wustl.edu. The position will remain open until filled.

Washington University is an equal opportunity employer and is committed to building diversity. Women and minority candidates are strongly encouraged to apply.

THE HISTORY OF NEUROSCIENCE IN AUTOBIOGRAPHY

THE LIVES AND DISCOVERIES OF EMINENT SENIOR NEUROSCIENTISTS
CAPTURED IN AUTOBIOGRAPHICAL BOOKS AND VIDEOS

The History of Neuroscience in Autobiography Series

Edited by Larry R. Squire

Outstanding neuroscientists tell the stories of their scientific work in this fascinating series of autobiographical essays. Within their writings, they discuss major events that shaped their discoveries and their influences, as well as people who inspired them and helped shape their careers as neuroscientists.

Autobiographical Video (Available in DVD Format)

PBS personality Richard Thomas interviews eminent senior neuroscientists who reflect upon their lives, their dreams, and their work, and share their insights on what's ahead in the field of neuroscience.

biomolecules

Bioactivity.

For stunning performance, look to
Sigma's range of Bioactive Small Molecules.

Sigma's collection of hand-picked Bioactive Small Molecules is second to none. Highly characterized with relevant activities, our compounds enable you to modulate protein targets and cellular functions with confidence. Our ligands, inhibitors and drugs impact most cellular processes and cover all major drug target classes. What's more, they're all searchable through our innovative search tool, Your Favorite Gene. Plus, our agreement with Pfizer now means we can offer Pfizer-developed drugs and literature compounds. When you add our superior Bioactive Small Molecules to your research, you'll know Sigma Life Science is where bioactivity begins.
