TMC’s breakthrough technology enables single molecule biophysics

...AFM...confocal...laser tweezers...multiphoton

TMC’s two-tiered LaserTable-Base™ combines a patented MaxDamp® Gimbal Piston™ air vibration isolation system to isolate high frequencies and the patented STACIS® technology incorporating piezoelectric actuators and inertial vibration sensors to cancel vibration at very low frequencies. The result: unprecedented levels of vibration isolation for the most sensitive research on the most severe floors.
Tenure Track Faculty Positions
Section of Anatomy

The Section of Anatomy at Southern Illinois University School of Dental Medicine is seeking applicants for two full time (12 month) tenure track faculty positions at the Assistant/Associate Professor level. Applicants must have a Ph.D. Postdoctoral training and prior teaching experience in one of the anatomical sciences below are desirable. Teaching duties are shared within the Section and include courses in Gross Anatomy, Neuroanatomy, Histology, and Oral Biology. Candidates are expected to direct one course, participate in additional teaching, and are expected to actively participate and collaborate in current ongoing dental research areas supported by the School. Academic rank and salary are commensurate with experience and qualifications. The school is located on a historic campus in Alton, 30 minutes from St. Louis. Review of applications will begin immediately. Applicants should submit a letter of application which describes teaching experience, topic preferences and research experience related to dental medicine, a curriculum vitae, and three letters of reference to: Dr. Ann Boyle, Dean, SIU-SDM, 2800 College Ave., Alton, Illinois 62002-4900 or by e-mail at aboyle@siue.edu. SIU-SDM is an EEO/AA employer. Women and minorities are encouraged to apply. SIUE is a state university available to holders of F-1 or J-1 visas.

The History of Neuroscience in Autobiography Series
Edited by Larry R. Squire
Outstanding neuroscientists tell the stories of their scientific work in this fascinating series of autobiographical essays. Within their writings, they discuss major events that shaped their discoveries and their influences, as well as people who inspired them and helped shape their careers as neuroscientists.

The History of Neuroscience in Autobiography, Vol. 1

The History of Neuroscience in Autobiography, Vol. 2

The History of Neuroscience in Autobiography, Vol. 3

The History of Neuroscience in Autobiography, Vol. 4
Per Andersen, Mary Bunge, Ian Bures, Jean-Pierre Changeux, John Dowling, Oleh Hornykiewicz, Andrew Huxley, Jac Sue Kehoe, Ed Kravitz, James McGaugh, Randolf Menzel, Mircea Steriade, Richard Thompson, W. Maxwell Cowan (completed by Brent Stanfield).

The History of Neuroscience in Autobiography, Vol. 5

The History of Neuroscience in Autobiography, Vol. 6

Autobiographical Video (Available in DVD Format)
PBS personality Richard Thomas interviews eminent senior neuroscientists who reflect upon their lives, their dreams, and their work, and share their insights on what’s ahead in the field of neuroscience.

The #1 Cited Journal in Neuroscience* 

Read *The Journal of Neuroscience* every week to keep up on what’s happening in the field.

- The number one cited journal in neuroscience
- The most neuroscience articles published each year — nearly 1,500 in 2008
- Impact factor 7.452
- Published 50 times a year
