See you in San Diego!

40th Annual Meeting of the Society for Neuroscience

November 13–17
The Department of Psychiatry at the University of Pennsylvania School of Medicine seeks candidates for an Assistant Professor position in the tenure track. The successful applicant will have experience in the field of psychiatric research with a focus on translational neuroscience. Responsibilities include the development of an independent academic laboratory within the Translational Neuroscience Program. Applicants must have an M.D. or Ph.D., or M.D., Ph.D. degree, and have demonstrated excellent qualifications in Research and Education.

The successful applicant must have substantial post graduate research experience. Current Instructors and Assistant Professors are encouraged to apply. Applicants should have the capability to direct an independent research laboratory that will be highly integrated into the Translational Neuroscience Program, including participation in joint grant applications and studies. Experience with therapeutic target development, animal models of psychiatric illness, or circuit modeling is preferred. A record of independent funding is desirable.

The University of Pennsylvania is an equal opportunity, affirmative action employer. Women and minority candidates are strongly encouraged to apply.

Apply for this position online at http://www.med.upenn.edu/apps/faculty_ad/index.php/g332/d2145

The #1 Cited Journal in Neuroscience*

Read The Journal of Neuroscience every week to keep up on what’s happening in the field.

- The number one cited journal in neuroscience
- The most neuroscience articles published each year — nearly 1,500 in 2008
- Impact factor 7.452
- Published 50 times a year

The History of Neuroscience in Autobiography Series

Edited by Larry R. Squire

Outstanding neuroscientists tell the stories of their scientific work in this fascinating series of autobiographical essays. Within their writings, they discuss major events that shaped their discoveries and their influences, as well as people who inspired them and helped shape their careers as neuroscientists.

The History of Neuroscience in Autobiography, Vol. 1

The History of Neuroscience in Autobiography, Vol. 2

Are you only scratching the surface?

If you are using any other method for ad libitum food intake measurements you are only scratching the surface. The BioDAQ Food & Water Intake Monitor records the native episodic intake behavior of rats and mice at very high resolution in their home cage. Discover the time and date of the initiation of feeding and drinking behavior, how much was consumed, and the period of the feeding or drinking activity.
