Breaking new ground in therapeutic areas.
As well as careers.

ABOUT BIOGEN IDEC
Biogen Idec uses cutting-edge science to discover, develop, manufacture and market biological products for the treatment of serious diseases with a focus on neurological disorders. Founded in 1978, we are the world’s oldest independent biotechnology company. Patients worldwide benefit from our leading multiple sclerosis therapies, and we generate more than $4 billion in annual revenues.

THE OPPORTUNITIES
As part of our Framework for Growth, we are renewing our commitment to scientific innovation in the pursuit of new therapies for Progressive multiple sclerosis and other important neurodegenerative diseases, including Alzheimer’s disease, Parkinson’s disease, ALS and more. With this renewed commitment, we are expanding our Neurology Discovery and Translational Medicine teams, which use cutting-edge research and imaging technologies to investigate novel disease pathways, identify new drug candidates, and establish novel translational strategies to improve the likelihood of drug development success in neurodegenerative diseases.

We invite you to be part of our culture of innovation, collaboration and discovery.

It’s a future – and a company – worth working for.
