See You in Washington, DC!

November 12–16, 2011
Neurotechnology Faculty Position
Oregon Health & Science University (OHSU)

The Department of Biomedical Engineering in the School of Medicine at OHSU invites applications for an Associate or Full Professor position with primary research interests in the area of neurotechnology, neural engineering, and cognitive systems. We encourage applicants interested in advancing basic biomedical research as well as clinical care through monitoring, assessment, diagnosis, rehabilitation and treatment of disease, especially in target areas of aging, neuro-developmental and neurological diseases. Other areas of interest include brain-computer interfaces, computational modeling of sensory-motor and neuro-cognitive systems, and application of imaging techniques to neural engineering problems.

The successful candidate must have a doctoral degree (PhD, MD or MD/PhD) and experience commensurate with their appointment. Applicants must have demonstrated potential for excellence in the relevant areas and must have a well-established research program with a record of extramural funding. He/she will be expected to maintain an independent, extramurally funded research program at OHSU.

Submit the application online at http://www.ohsu.edu/xd/about/services/human-resources/. Please reference IRC31840. For questions please contact Jana Smilanich-Rose at smilanic@ohsu.edu.

OHSU is an Affirmative Action, Equal Opportunity Employer. Women, minorities, disabled persons, Vietnam era and disabled veterans are encouraged to apply. OHSU is a smoke free workplace.

Stony Brook University's Department of Neurobiology and Behavior is seeking two postdoctoral associates. Proposed studies combine optogenetic and electrophysiological techniques to probe cholinergic circuitry as part of an NIH Directors Pioneer Award-supported program. Candidates must hold a doctoral degree or the equivalent degree from a foreign university. Preferred qualifications include an M.D. and/or Ph.D. degree in neuroscience or related field and have prior experience in in-vivo electrophysiology.

For a full position description, application procedures, or to apply online, visit www.stonybrook.edu/jobs (Job Reference #: WC-R-6634-10-12-S).

Stony Brook University/SUNY is an equal opportunity, affirmative action employer.

The History of Neuroscience in Autobiography Series
Edited by Larry R. Squire
Outstanding neuroscientists tell the stories of their scientific work in this fascinating series of autobiographical essays. Within their writings, they discuss major events that shaped their discoveries and their influences, as well as people who inspired them and helped shape their careers as neuroscientists.

The History of Neuroscience in Autobiography, Vol. 1

The History of Neuroscience in Autobiography, Vol. 2

The History of Neuroscience in Autobiography, Vol. 3

The History of Neuroscience in Autobiography, Vol. 4
Per Andersen, Mary Bunge, Jan Bures, Jean-Pierre Changeux, John Dowling, Oleh Hornykiewicz, Andrew Huxley, Jac Sue Kehoe, Ed Kravitz, James McGaugh, Randolf Menzel, Mircea Steriade, Richard Thompson, W. Maxwell Cowan (completed by Brent Stanfield).

The History of Neuroscience in Autobiography, Vol. 5

The History of Neuroscience in Autobiography, Vol. 6

Autobiographical Video (Available in DVD Format)
PBS personality Richard Thomas interviews eminent senior neuroscientists who reflect upon their lives, their dreams, and their work, and share their insights on what’s ahead in the field of neuroscience.

Julius Axelrod/Theodore H. Bullock

The #1 Cited Journal in Neuroscience

Read *The Journal of Neuroscience* every week to keep up on what’s happening in the field.

- The number one cited journal in neuroscience
- The most neuroscience articles published each year — nearly 1,500 in 2008
- Impact factor 7.452
- Published 50 times a year
