

The Journal of Neuroscience

February 23, 2011 • Volume 31 Number 8 • www.jneurosci.org

Cover legend: The eye of adult tiger salamander (*Ambystoma tigrinum*) overlain with an illustration of the functional interaction network of retinal ganglion cells inferred from the cells' joint activity. For more information, see the article by Ganmor et al. in this issue (pages 3044–3054).
