

The Journal of Neuroscience

May 30, 2012 • Volume 32 Number 22 • www.jneurosci.org

Cover legend: A third instar larval brain with eye imaginal discs attached to the brain lobes. Glial mitochondria have been labeled by expressing a mito-GFP construct (green). After pan-glial knockdown of kinesin, heavy chain mitochondria are abnormally distributed. For details see the article by Schmidt et al. (pages 7466–7476).

Suneil Hosmane, Million Adane Tegenge, Labchan Rajbhandari,
Prech Uapinyoying, Nishant Ganesh Kumar, Nitish Thakor, and Arun Venkatesan

7766 *Erratum:* The article “Age-Dependent Rescue by Simvastatin of Alzheimer’s Disease Cerebrovascular and Memory Deficits” by Xin-Kang Tong, Clotilde Lecrux, and Edith Hamel appeared on pages 4705–4715 of the April 4, 2012 issue. An erratum for that article appears on page 7766.

Persons interested in becoming members of the Society for Neuroscience should contact the Membership Department, Society for Neuroscience, 1121 14th St., NW, Suite 1010, Washington, DC 20005, phone 202-962-4000.

Instructions for Authors are available at <http://www.jneurosci.org/misc/itoa.shtml>. Authors should refer to these Instructions online for recent changes that are made periodically.

Brief Communications Instructions for Authors are available via Internet (http://www.jneurosci.org/misc/ifa_bc.shtml).

Submissions should be submitted online using the following url: <http://jneurosci.msubmit.net>. Please contact the Central Office, via phone, fax, or e-mail with any questions. Our contact information is as follows: phone, 202-962-4000; fax, 202-962-4945; e-mail, jn@sfn.org.
