Assistant Professor
(Basic/Translational Researcher)

The University of Pittsburgh Department of Neurological Surgery is recruiting an experienced translational researcher at the rank of Assistant Professor in the tenure stream. Candidates should have a doctoral degree and at least five years of postdoctoral experience. Candidates must have an established record of receiving nationally competitive research support for his/her developing independent research program using pluripotent stem cell biology and directed differentiation to evaluate the effects of environmental exposures on development. In addition to his/her independent project, the successful candidate will participate in collaborative projects in neurological disease within the department, including the use of pluripotent stem cells for basic and translational studies. Additionally, this candidate will have responsibility for the overall coordination of the research efforts in the newly established Neuroapoptosis Laboratory, including the writing and editorial assistance of progress reports, manuscripts, and grant proposals. Thus, a background in the regulation and mechanisms of apoptosis is required. Salary is competitive and commensurate with training and experience. In order to receive full consideration, applications must be received by April 30, 2012.

Send inquiries to:
Robert Friedlander, M.D.
Chairman
Department of Neurological Surgery
Suite B-400 PUH, 200 Lothrop Street
Pittsburgh, PA 15213
(412) 647-6358

The University of Pittsburgh is an Affirmative Action, Equal Opportunity Employer.

Are you an SfN member?
Join now and save on annual meeting registration. You’ll also enjoy these member-only benefits:

• Abstract submission — only SfN members can submit abstracts for the annual meeting
• Lower registration rates and more housing choices for the annual meeting
• The Journal of Neuroscience — access The Journal online and receive a discounted subscription on the print version
• Free essential color charges for The Journal of Neuroscience manuscripts, when first and last authors are members
• Free online access to the European Journal of Neuroscience
• Premium services on NeuroJobs, SfN’s online career resource
• Member newsletters, including Neuroscience Quarterly and Nexus

If you are not a member or let your membership lapse, there’s never been a better time to join or renew. Visit www.sfn.org/joinnow and start receiving your member benefits today.
Who’s on NeurOnLine?

Emanuel DiCicco-Bloom  
SFN Public Education and Communication Committee Member  
Robert Wood Johnson Medical School

Emma Duerden  
SFN 2009 Next Generation Award Winner  
The Hospital for Sick Children

Joanne Berger-Sweeney  
SFN’s Professional Development Committee Co-chair  
Tufts University

Erich Jarvis  
SFN’s Professional Development Committee Member  
Duke University

NeurOnLine is a new, SFN members-only online community where you can share great science, network, forge collaborations, and keep in touch — anytime, anywhere — within a trusted forum. As with the SFN annual meeting and *The Journal of Neuroscience*, NeurOnLine’s content and discussions will be generated by members, for members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, more than 41,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

*NeurOnLine will help you advance your science and career on your schedule.*

neuronline.sfn.org
Launching in Spring 2012

The Journal of Neuroscience comes to Mobile Web

Access all of your journal resources wherever you go

- The Journal of Neuroscience will soon be available for comprehensive and universal mobile access
- Gain quick access to The Journal articles, table of contents, and the features you have come to expect from the premier journal in the field
- Connect to The Journal from virtually any mobile device, anywhere a web connection is available
It’s YOUR Meeting.
It’s YOUR Experience.

Comprehensive, cutting-edge NEUROSCIENCE in YOUR area of interest.
