The perfect slice at the right price.

INTRODUCING THE NEW STANDARD IN TISSUE SLICING

PELCO easiSlicer™

Affordable Quality.
A fresh approach to traditional standards, the PELCO easiSlicer™ brings precision vibratory tissue slicing to labs of all sizes.

Consistent Reliability.
Solid construction and exceptional stability provides exacting control of section thickness with minimal z-axis vibration and consistently produces high quality sections.

Simple Versatility.
Simple, effective, manual design makes the PELCO easiSlicer™ perfect for multi-user and multi-application labs.

The Department of Neurology at the University of Texas Medical Branch (UTMB) seeks an accomplished basic scientist or a clinician scientist to lead the Mitchell Center for Neurodegenerative Diseases. Established in 2006, the Mitchell Center is part of a robust research enterprise at UTMB which includes $148M in research expenditures and departments ranked among the National Institute of Health’s top 10. The individual will also serve as Vice Chair for Research for the Department of Neurology and hold the Endowed Sealy Distinguished Chair. Applicants must have a PhD or MD, PhD and the qualifications to be appointed as Professor ( tenure track). UTMB Health is an Equal Opportunity, Affirmative Action Institution, which proudly values diversity. Candidates of all backgrounds, including persons with disabilities, are encouraged to apply. The successful candidate will possess a strong record of investigative extramural funding, mentoring junior scientists and clinician-scientists. Suitable candidates should apply with CV and three references to:

Ansh Bhardwaj, M.D., M.B.A., C.P.E., FABA, FCCM, FAAN, FANA
John Sealy Chairman and Professor
Department of Neurology
Assistant Dean for Faculty Affairs
University of Texas Medical Branch (UTMB)

Professor In-Residence
University of California, Irvine
Institute for Memory Impairments and Neurological Disorders

The University of California, Irvine’s Institute for Memory Impairments and Neurological Disorders has an opportunity for a Director of Education. The Director of Education holds primary responsibility for educating the UCI community as well as the local community and special targeted audiences about MCI, AD and related dementias, as well as the activities of the Institute, through oral and written vehicles including, but not limited to, presentations, publications, and on-line tools. Activities of the Director of Education are designed to support the clinical research and fund development efforts of the Institute. The successful candidate will be expected to develop and maintain an independent and extramurally funded program of research at UCI and will be immediately responsible for drafting manuscripts for research using longitudinal cohort data. In addition, the candidate will have teaching assignments and will be expected to participate in the design of the curriculum of the department. Lastly, the successful candidate will support fund-raising activities through the development of foundation, corporate, and research grant proposals.

Requirements: Ph.D. in Neuroscience with expertise in the fields of aging, mild cognitive impairment and Alzheimer’s disease. Also required is extensive experience in program development, advanced writing skills, and many years experience with grant writing, including R01 and foundation grants. The applicant must have a strong background in community networking and presentations, developing and nurturing community partnerships, and developing and editing newsletters and must have knowledge of the current social media and how to use these as tools for communicating. The job requires strong organizational skills as well as mentoring skills for graduate research students.

The successful candidate will be appointed at the full Professor level in the Professor In-Residence Series in a school of medicine department and at the level that is commensurate with the education and experience of the individual candidate.

Application Procedure – Interested applicants should apply online through UCI RECRUIT at the following link: https://recruit.ap.uci.edu/applicants/JPFD2134. Please upload a letter of interest, curriculum vitae with record of research experience, and the names of three references before 12/1/2013.

The University of California, Irvine is an equal opportunity employer committed to excellence through diversity.
Who’s on NeurOnLine?

Emanuel DiCicco-Bloom  
SfN Public Education and Communication Committee Member  
Robert Wood Johnson Medical School

Joanne Berger-Sweeney  
SfN’s Professional Development Committee Co-chair  
Tufts University

NeurOnLine is an SfN members-only online community where you can share great science, network, forge collaborations, and keep in touch—anytime, anywhere—within a trusted forum. As with the SfN annual meeting and The Journal of Neuroscience, NeurOnLine’s content and discussions will be generated by members, for members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, nearly 42,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

NeurOnLine will help you advance your science and career on your schedule.
