Two Open-Rank University of Michigan Faculty Positions in Systems Neuroscience

The Department of Psychology at the University of Michigan, Ann Arbor, invites applications for two tenure-track faculty positions (Assistant, Associate or Full Professor) in Biopsychology/Systems Neuroscience. The expected start date is September 1, 2015. The specific area of research interest is open, but preference will be given to individuals who conduct systems/circuit-level neuroscience research with a behavioral component. New laboratory space and generous start-up packages are available. These are university-year appointments.

Successful candidates must have a Ph.D. in a relevant discipline (e.g., Psychology, Neuroscience, Biology) by the time the position starts, and a commitment to undergraduate and graduate teaching. New faculty hired at the Assistant Professor level will be expected to establish an independent research program. More senior applicants should have a well-established, externally-funded research program with an excellent international reputation. Please submit a letter of intent, curriculum vitae, a statement of current and future research plans, a statement of teaching philosophy and experience, and evidence of teaching excellence (if available). Applicants for Assistant Professorships should also request at least three letters of recommendation from referees. All materials should be e-mailed by September 30, 2014 as attachments to Biopsychology.Search@umich.edu. For inquiries about the positions please contact Martin Sarter (msarter@umich.edu).

The University of Michigan is an equal opportunity/affirmative action employer. Qualified women and minority candidates are encouraged to apply. The University is supportive of the needs of dual-career couples.

Become part of the world’s largest organization of scientists and physicians devoted to understanding the brain and nervous system.

Join now and enjoy exclusive member benefits:

- Reduced fees and advanced registration for Neuroscience 2014
- Online subscription and reduced publication fees for The Journal of Neuroscience
- Abstract submission eligibility for the annual meeting
- Networking and scientific discussion on NeurOnLine
- Free online access to the European Journal of Neuroscience
- Premium career services through NeuroJobs
- And more!

THE HISTORY OF NEUROSCIENCE IN AUTOBIOGRAPHY

THE LIVES AND DISCOVERIES OF EMINENT SENIOR NEUROSCIENTISTS CAPTURED IN AUTOBIOGRAPHICAL BOOKS AND VIDEOS

The History of Neuroscience in Autobiography Series

Edited by Larry R. Squire

Outstanding neuroscientists tell the stories of their scientific work in this fascinating series of autobiographical essays. Within their writings, they discuss major events that shaped their discoveries and their influences, as well as people who inspired them and helped shape their careers as neuroscientists.

Autobiographical Video (Available in DVD Format)

PBS personality Richard Thomas interviews eminent senior neuroscientists who reflect upon their lives, their dreams, and their work, and share their insights on what's ahead in the field of neuroscience.

Duke University

NeurOnLine is an SfN members-only online community where you can share great science, network, forge collaborations, and keep in touch—anytime, anywhere—within a trusted forum. As with the SfN annual meeting and The Journal of Neuroscience, NeurOnLine’s content and discussions will be generated by members, for members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, nearly 42,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

NeurOnLine will help you advance your science and career on your schedule.
