Clinical fellowship, Beth Israel Deaconess Medical Center, Sidney R. Baer, Jr. Foundation Fellowship in Clinical Neurosciences

The department of Neurology and the Berenson-Allen Center for Noninvasive Brain Stimulation ([www.tmslab.org](http://www.tmslab.org)) at Beth Israel Deaconess Medical Center (BIDMC), and Harvard Medical School (HMS) are seeking a clinical fellow with training in neurology or psychiatry. Applicants must be committed to working across these two disciplines, and conduct a feasible and potentially impactful translational research project.

The Sidney R. Baer, Jr. Fellowship in Clinical Neurosciences is a joint effort between the neurology and psychiatry departments at BIDMC, designed as a three-year fellowship including both clinical and research mentoring and training. Fellows will be matched with two mentors: one from the psychiatry faculty, and one from the neurology faculty at Harvard Medical School. Seed funding and appropriate mentoring and support from the Harvard community will be provided for the research project. Qualified candidates must be board certified in neurology or psychiatry, and have independent research goals and clinical interests.

To apply, please send the following to Alvaro Pascual-Leone, MD, PhD (apleone@bidmc.harvard.edu):

1. Curriculum vitae
2. Statement of experience and career goals
3. List of 3 references that may be contacted

HMS and BIDMC are Equal Opportunity/Affirmative Action Employers
Who’s on NeurOnLine?

- Joanne Berger-Sweeney
  SFN’s Professional Development Committee Co-chair
  Tufts University

- Emanuel DiCicco-Bloom
  SFN Public Education and Communication Committee Member
  Robert Wood Johnson Medical School

- Emma Duerden
  SFN 2009 Next Generation Award Winner
  The Hospital for Sick Children

- Erich Jarvis
  SFN’s Professional Development Committee Member
  Duke University

- Emma Duerden
  SFN 2009 Next Generation Award Winner
  The Hospital for Sick Children

Join the Conversation

NeurOnLine is an SFN members-only online community where you can share great science, network, forge collaborations, and keep in touch—anytime, anywhere—within a trusted forum. As with the SFN annual meeting and The Journal of Neuroscience, NeurOnLine’s content and discussions will be generated by members, for members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, nearly 42,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

*NeurOnLine will help you advance your science and career on your schedule.*

Only one name in surgical instruments emerges.

Since 1974, Fine Science Tools has been leading the way in supplying exceptional surgical and microsurgical instruments. These instruments feature strong, durable materials crafted with unrelenting precision and supreme quality – known, preferred and demanded amongst scientists and biomedical researchers worldwide.

Visit us at finescience.com to explore our complete product line, and to locate our offices and dealers around the world.
