BOSTON UNIVERSITY | Position in Integrative Neurobiology

The Department of Biology invites applications for a tenure-track faculty position in integrative neurobiology, spanning from the cell and molecular biology of neurons to animal behavior.

Research themes of particular interest include:

1) integrative analyses of the formation, composition, plasticity, and function of neural circuits in studies of development, innate and learned behaviors, and disease states of the nervous system;

2) the mapping of brain activity in relation to behavior using cutting edge methods and technology;

3) the molecular and cellular mechanisms that determine the patterning of neural circuit wiring. Applicants must have a PhD in a relevant field and be expected to have postdoctoral experience and a strong publication record.

Responsibilities include establishing a research program with extramural funding, teaching at both the graduate and undergraduate levels, and participating in Biology and Neuroscience graduate programs. The successful candidate will join a strong and growing interdisciplinary Neuroscience research community at Boston University and will be offered newly renovated laboratory facilities, a competitive salary and start-up package.

Review of applications will begin 1 November 2014.

Please use AcademicJobsOnline https://academicjobsonline.org/ajo/jobs/4437 to submit a cover letter, curriculum vitae, statements of research and teaching interests, three representative reprints, and arrange for three letters of reference to be submitted through the same website.

Inquiries can be addressed to
Michael Sorenson (msoren@bu.edu)
Chair, Neurobiology Search Committee

Join now and enjoy exclusive member benefits:

- Reduced fees and advanced registration for Neuroscience 2014
- Online subscription and reduced publication fees for The Journal of Neuroscience
- Abstract submission eligibility for the annual meeting
- Networking and scientific discussion on NeurOnLine
- Free online access to the European Journal of Neuroscience
- Premium career services through NeuroJobs
- And more!

Join now at SfN.org

The #1 Cited Journal in Neuroscience®
Read The Journal of Neuroscience every week to keep up on what’s happening in the field.

- The number one cited journal in neuroscience
- The most neuroscience articles published each year—nearly 1,800 in 2011
- Impact factor 7.12
- Published 50 times a year

Duke University

NeurOnLine is an SfN members-only online community where you can share great science, network, forge collaborations, and keep in touch—anytime, anywhere—within a trusted forum. As with the SfN annual meeting and The Journal of Neuroscience, NeurOnLine’s content and discussions will be generated by members, for members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, nearly 42,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

NeurOnLine will help you advance your science and career on your schedule.

The Journal of Neuroscience is mobile!

Access all of your journal resources wherever you go

- The Journal of Neuroscience is available for comprehensive and universal mobile access.

- Gain quick access to The Journal articles, table of contents, and the features you have come to expect from the premier journal in the field.

- Connect to The Journal from virtually any mobile device, anywhere a web connection is available.
Give to the Friends of SfN Fund
Join us in forging the future of neuroscience

Support a future of discovery and progress through travel awards and public education and outreach programs.

To inquire about specific initiatives or to make a tax-deductible contribution, visit SfN.org or email: development@sfn.org.
SfN members enjoy premium services, including resume posting and job alert e-mail notices.

NeuroJobs — the premier online neuroscience career center — helps you find jobs and manage your career. NeuroJobs is now part of the National Healthcare Career Network* providing access to even more career opportunities.

Share the wonders of the brain and mind with BrainFacts.org

Seeking resources to communicate with the public about neuroscience? Educating others through Brain Awareness activities?

BrainFacts.org can help you communicate how the brain works.

Explore BrainFacts.org for easy-to-use, accessible resources including:

- Information about hundreds of diseases and disorders
- Concepts about brain function
- Educational tools
- Multimedia tools and a social media community
- Interviews and discussions with leading researchers; and more
