Baystate Health is embarking on building a Neurosciences Center of Excellence and is looking to recruit top talent to support this growing enterprise. As the leader in neurosciences within the region, both at the 716 bed tertiary, level one trauma center and the integrated two affiliated community hospitals, Baystate is seeking an outstanding neurologist to join the team of 19 providers caring for patients in a variety of regional settings. Candidate should desire to practice state-of-the-art medicine while providing the highest quality patient care. As a member of this growing team you will have the opportunity to combine your clinical practice skills with teaching and clinical research. The focus of the position is primarily outpatient general neurology with some inpatient responsibility with the ability to practice in multiple locations, including Baystate Medical Center - a 716 bed tertiary care facility which serves as the principal referral center for western Massachusetts, as well as Baystate Franklin Medical Center (BFMC) in Greenfield, Massachusetts - a 93-bed acute care community hospital and certified Primary Stroke Center. This is an employed position within our large multi-specialty group of 600+ physicians.

There is potential to develop an area of specialty interest in addition to practicing general neurology. Candidates must be BE/BC in neurology and have excellent organizational, communication and team skills. Our office hours and call schedule offer flexibility for a healthy work/life balance. We are pleased to provide a competitive compensation package, which includes a base salary, bonus incentives, and generous health insurance, CME, relocation and vacation packages. At Baystate Health, we are proud of our environment of diversity, inclusion, and cultural competence where all providers, employees and patients feel valued and included.

We are committed to raising the standard for excellence - join us in delivering a higher state of caring at Baystate Health.

**Join the Conversation**

*NeurOnLine* is an SfN members-only online community where you can share great science, network, forge collaborations, and keep in touch—anytime, anywhere—within a trusted forum. As with the SfN annual meeting and *The Journal of Neuroscience*, *NeurOnLine*’s content and discussions will be generated by members, for members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, nearly 42,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

*NeurOnLine* will help you advance your science and career on your schedule.
