Who’s on NeurOnLine?

Emanuel DiCicco-Bloom  
SfN Public Education and Communication Committee Member  
Robert Wood Johnson Medical School

Emma Duerten  
SfN 2009 Next Generation Award Winner  
The Hospital for Sick Children

Joanne Berger-Sweeney  
SfN’s Professional Development Committee Co-chair  
Tufts University

Erich Jarvis  
SfN’s Professional Development Committee Member  
Duke University

Join the Conversation

NeurOnLine is an SfN members-only online community where you can share great science, network, forge collaborations, and keep in touch—anytime, anywhere—within a trusted forum. As with the SfN annual meeting and The Journal of Neuroscience, NeurOnLine’s content and discussions will be generated by members, for members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, nearly 42,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

NeurOnLine will help you advance your science and career on your schedule.

The Journal of Neuroscience
is mobile!

Access all of your journal resources wherever you go

- *The Journal of Neuroscience* is available for comprehensive and universal mobile access.
- Gain quick access to *The Journal* articles, table of contents, and the features you have come to expect from the premier journal in the field
- Connect to *The Journal* from virtually any mobile device, anywhere a web connection is available
BROWN UNIVERSITY
TENURED POSITION IN NEUROSCIENCE

Brown University’s interdisciplinary Institute for Brain Science and the Department of Neuroscience invite applications for a tenured faculty position at the level of Associate Professor or Professor. The successful applicant will use advanced molecular or genetic approaches to address fundamental mechanisms underlying brain development, function, or disorders. Any experimental system will be considered, but a successful candidate will address questions critical to understanding brain function. We seek an established scientist with an M.D. and/or Ph.D. degree who has an international reputation, a well supported, highly successful independent research program, and an established record of scholarly contribution. A collaborative approach is essential. The incumbent is expected to participate in the educational mission of Brown University. We strongly encourage applications from women and minorities. Further information about the Department, the Graduate Program, and the Brown Institute of Brain Science is available at: http://neuroscience.brown.edu http://www.brainscience.brown.edu.

The search committee will give full consideration to applications received by October 15, 2015. Applicants should submit their curriculum vitae, teaching statement and a two-page description of their research plans and scientific vision to: apply.interfolio.com/27040.

Brown University is an Affirmative Action/Equal Opportunity employer.
Become part of the world’s largest organization of scientists and physicians devoted to understanding the brain and nervous system.

**Join now and enjoy exclusive member benefits:**

- Reduced fees and advanced registration for Neuroscience 2015
- Online subscription and reduced publication fees for *The Journal of Neuroscience*
- Abstract submission eligibility for the annual meeting
- Networking and scientific discussion on NeurOnLine
- Free online access to the *European Journal of Neuroscience*
- Premium career services through NeuroJobs
- Also, by being part of SfN, your membership dues help fund programs and initiatives that support efforts across the field of neuroscience.
- And more!

Share the wonders of the brain and mind with BrainFacts.org

Seeking resources to communicate with the public about neuroscience? Educating others through Brain Awareness activities?

BrainFacts.org can help you communicate how the brain works.

Explore BrainFacts.org for easy-to-use, accessible resources including:

- Information about hundreds of diseases and disorders
- Concepts about brain function
- Educational tools
- Multimedia tools and a social media community
- Interviews and discussions with leading researchers; and more
