

## Corrections

### **Correction: Shumay et al., “New Repeat Polymorphism in the *AKT1* Gene Predicts Striatal Dopamine D2/D3 Receptor Availability and Stimulant-Induced Dopamine Release in the Healthy Human Brain”**

In the article, “New Repeat Polymorphism in the *AKT1* Gene Predicts Striatal Dopamine D2/D3 Receptor Availability and Stimulant-Induced Dopamine Release in the Healthy Human Brain” by Elena Shumay, Corinde E. Wiers, Ehsan Shokri-Kojori, Sung Won Kim, Colin A. Hodgkinson, Hui Sun, Dardo Tomasi, Christopher T. Wong, Daniel R. Weinberger, Gene-Jack Wang, Joanna S. Fowler, and Nora D. Volkow, which appeared on pages 4982–4991 of the May 10, 2017 issue, the authors apologize for a typo in our manuscript which incorrectly identified SNP rs2494732 as rs2494372 in Materials and Methods, Results, and Discussion. This error does not affect any of the results, conclusions, or interpretations. This error has been corrected in the online PDF version.

### **Correction: Sharma et al., “Principles Governing DNA Methylation during Neuronal Lineage and Subtype Specification”**

In the article “Principles Governing DNA Methylation during Neuronal Lineage and Subtype Specification” by Ali Sharma, Shifra S. Klein, Luendreo Barboza, Niraj Lohdi, and Miklos Toth, which appeared on pages 1711–1722 of the February 3, 2016 issue, there was a typo in the names of the second and fourth authors. The corrected author list is as follows: Ali Sharma, Shifra Liba Klein, Luendreo Barboza, Niraj Lodhi, and Miklos Toth. This error does not affect any of the conclusions or interpretations in our paper. The author line has been corrected on the online PDF version.
