

# THE JOURNAL OF NEUROSCIENCE

AUGUST 1981

VOLUME 1 NUMBER 8

THE OFFICIAL JOURNAL OF THE SOCIETY FOR NEUROSCIENCE

---

## CONTENTS

- EASTER, S. S., JR., A. C. RUSOFF, AND P. E. KISH: The Growth and Organization of the Optic Nerve and Tract in Juvenile and Adult Goldfish 793
- CHIU, A. Y., AND F. STRUMWASSER: An Immunohistochemical Study of the Neuropeptidergic Bag Cells of *Aplysia* 812
- ROLDÁN, M., AND F. REINOSO-SUÁREZ: Cerebellar Projections to the Superior Colliculus in the Cat 827
- PRICHARD, R. G., AND M. E. LICKEY: *In Vitro* Resetting of the Circadian Clock in the *Aplysia* Eye. I. Importance of Efferent Activity in Optic Nerve 835
- PRICHARD, R. G., AND M. E. LICKEY: *In Vitro* Resetting of the Circadian Clock in the *Aplysia* Eye. II. The Critical Period for Optic Nerve Activity 840
- PRICHARD, R. G., AND M. E. LICKEY: *In Vitro* Resetting of the Circadian Clock in the *Aplysia* Eye. III. Location of Photoreceptors That Signal Continuous Light to Continuous Darkness 846
- RAVDIN, P. M., R. M. NITKIN, AND D. K. BERG: Internalization of  $\alpha$ -Bungarotoxin on Neurons Induced by a Neurotoxin That Blocks Neuronal Acetylcholine Sensitivity 849
- STEVENSON, J. A., AND M. G. YOON: Mitosis of Radial Glial Cells in the Optic Tectum of Adult Goldfish 862
- ASTON-JONES, G., AND F. E. BLOOM: Activity of Norepinephrine-containing Locus Coeruleus Neurons in Behaving Rats Anticipates Fluctuations in the Sleep-Waking Cycle 876
- ASTON-JONES, G., AND F. E. BLOOM: Norepinephrine-containing Locus Coeruleus Neurons in Behaving Rats Exhibit Pronounced Responses to Non-noxious Environmental Stimuli 887
- FITZPATRICK-MCELLIGOTT, S., AND G. S. STENT: Appearance and Localization of Acetylcholinesterase in Embryos of the Leech *Helobdella triserialis* 901
- GUYENET, P. G., AND J. B. CABOT: Inhibition of Sympathetic Preganglionic Neurons by Catecholamines and Clonidine: Mediation by an  $\alpha$ -Adrenergic Receptor 908
- JACOBSON, M.: Rohon-Beard Neuron Origin from Blastomeres of the 16-Cell Frog Embryo 918
- JACOBSON, M.: Rohon-Beard Neurons Arise from a Substitute Ancestral Cell after Removal of the Cell from Which They Normally Arise in the 16-Cell Frog Embryo 923
