

Erratum: The publisher would like to acknowledge an error in the printing of “Calcium, Network activity, and the Role of NMDA Channels in Synaptic Plasticity *in vitro*,” by R. D. Fields, C. Yu, and P. G. Nelson (*The Journal of Neuroscience* 11:134–146, January 1991). In Table 2, the data element in line 2 under “Unstimulated side mean” should read 1.21 rather than 0.862. The publisher regrets this error.
