

Errata:

In the article “Interleukin-1 β Augments Release of Norepinephrine, Dopamine, and Serotonin in the Rat Anterior Hypothalamus,” Futoshi Shintani et al., pp. 3574–3581 in the August 1993 issue of *The Journal of Neuroscience*, there is an error in Figure 5. The symbols in the upper half of the figure are incorrectly labeled. The *open circle* should be labeled DXM + IL-1 β , and the *solid circle* should be labeled DXM + VEHICLE. The authors regret the error.
