

The Journal of Neuroscience

October 24, 2007 • Volume 27 Number 43 www.jneurosci.org

Cover legend: Three-dimensional reconstruction of a large mossy fiber bouton and its postsynaptic CA3 pyramidal target dendrite. Volume reconstruction of an *en passant* mossy fiber bouton (depicted in transparent dark yellow) and its postsynaptic target dendrite (blue), as reconstructed from a series of ultrathin sections taken from an adult rat hippocampus. The spiny excrescences of the postsynaptic target dendrite were almost entirely covered by the nerve terminal. The pool of synaptic vesicles (green dots) was distributed throughout the entire nerve terminal. Mitochondria (white) were seen to form either cluster- or band-like arrangements. For more information, see the article by Rollenhagen et al. in the September 26, 2007 issue (pages 10434–10444) (<http://www.jneurosci.org/cgi/content/abstract/27/39/10434>).

- 11776 ***Erratum:*** In the article "Trio Controls the Mature Organization of Neuronal Clusters in the Hindbrain" by Stéphanie Backer, Matias Hidalgo-Sánchez, Nicolas Offner, Elodie Portales-Casamar, Anne Debant, Philippe Fort, Cécile Gauthier-Rouvière, and Evelyn Bloch-Gallego, which appeared on pages 10323–10332 of the September 26, 2007 issue, Figure 6 was incorrectly printed in black and white. The correct Figure 6 is printed in this issue.

Persons interested in becoming members of the Society for Neuroscience should contact the Membership Department, Society for Neuroscience, 1121 14th St., NW, Suite 1010, Washington, DC 20005, phone 202-962-4000.

Instructions for Authors are available at <http://www.jneurosci.org/misc/itoa.shtml>. Authors should refer to these Instructions online for recent changes that are made periodically.

Brief Communications Instructions for Authors are available via Internet (http://www.jneurosci.org/misc/ifa_bc.shtml).

Submissions should be submitted online using the following url: <http://sfn.manuscriptcentral.com>. Please contact the Central Office, via phone, fax, or e-mail with any questions. Our contact information is as follows: phone, 202-962-4000; fax, 202-962-4945; e-mail, jn@sfn.org.
