

The Journal of Neuroscience

April 15, 2009 • Volume 29 Number 15 • www.jneurosci.org

Cover legend: Genetic labeling of a single mitral cell in the olfactory bulb of a zebrafish larva. The mitral cell axon projects bilaterally to the telencephalon and proceeds to project asymmetrically to the right habenula. For more information, see the article by Miyasaka et al. in this issue (pages 4756–4767).

- 4981 **Activation of TRPV1 Mediates Calcitonin Gene-Related Peptide Release, Which Excites Trigeminal Sensory Neurons and Is Attenuated by a Retargeted Botulinum Toxin with Anti-Nociceptive Potential**
Jianghui Meng, Saak V. Ovsepian, Jiafu Wang, Mark Pickering, Astrid Sasse, K. Roger Aoki, Gary W. Lawrence, and J. Oliver Dolly

5044 *Erratum:* In the article “Vasopressin 1b Receptor Knock-Out Impairs Memory for Temporal Order” by Loren M. DeVito, Rachael Konigsberg, Christine Lykken, Magdalena Sauvage, W. Scott Young III, and Howard Eichenbaum, there is an error in Table 1. For Stage 2, Session 2, “BC and DE (four trials each)” should have read “CD and DE (four trials each).” The corrected Table 1 is printed in this issue.

Persons interested in becoming members of the Society for Neuroscience should contact the Membership Department, Society for Neuroscience, 1121 14th St., NW, Suite 1010, Washington, DC 20005, phone 202-962-4000.

Instructions for Authors are available at <http://www.jneurosci.org/misc/itoa.shtml>. Authors should refer to these Instructions online for recent changes that are made periodically.

Brief Communications Instructions for Authors are available via Internet (http://www.jneurosci.org/misc/ifa_bc.shtml).

Submissions should be submitted online using the following url: <http://jneurosci.msubmit.net>. Please contact the Central Office, via phone, fax, or e-mail with any questions. Our contact information is as follows: phone, 202-962-4000; fax, 202-962-4945; e-mail, jn@sfn.org.
