November 23, 2011 • Volume 31 Number 47 • www.jneurosci.org

Cover legend: Mapping of complex sounds onto the songbird auditory forebrain. Sound pressure waveforms (gray, in background) represent zebra finch vocalization. Green squares with sound features on the bird's head illustrate the neural representation of sounds. Illustration by Hyuek Rhee. See the article by Kim and Doupe in this issue (pages 16977–16990).
