

STACIS® iX LaserTable-Base™

Hybrid Piezoelectric/Air
Active Vibration Cancellation System

TMC's breakthrough technology enables single molecule biophysics
...AFM...confocal...laser tweezers...multiphoton

TMC's two-tiered LaserTable-Base™ combines a patented MaxDamp® Gimbal Piston™ air vibration isolation system to isolate high frequencies and the patented STACIS® technology incorporating piezoelectric actuators and inertial vibration sensors to cancel vibration at very low frequencies. The result: unprecedented levels of vibration isolation for the most sensitive research on the most severe floors.

Middlebury

Come build your future at Middlebury College!

MOLECULAR NEUROPHYSIOLOGIST

We invite applications for a tenure-track appointment at the rank of Assistant Professor, joint with the Department of Biology and the Program in Neuroscience, in molecular neurophysiology, to begin September 2013. Applicants should have a Ph.D. and a demonstrated commitment to excellence in both teaching and research. Teaching responsibilities include: an introductory level course in genetics and cell biology or introductory neuroscience, an upper level course in animal physiology, and other courses in the applicant's field that can strengthen and broaden our course offerings. The successful candidate is expected to establish an active research program involving undergraduates, preferably using an invertebrate system.

Middlebury College is a top-tier liberal arts college with a demonstrated commitment to excellence in faculty teaching and research. An Equal Opportunity Employer, the College is committed to hiring a diverse faculty as we work to foster innovation in our curriculum and to provide a rich and varied educational experience to our increasingly diverse student body.

Applications for this position will be accepted starting on September 1st, 2012, and all application materials must be received by November 1, 2012. Middlebury College uses Interfolio to collect all faculty job applications electronically. Email and paper applications will not be accepted. Through Interfolio, submit letter of application addressed to search committee chair Dr. Thomas Root, curriculum vitae, graduate transcripts, a statement of teaching interests that describes the candidate's relevant teaching background and addresses their approach to teaching animal physiology, a statement of research interests, samples of scholarly work, and three current letters of recommendation [at least two of which speak directly to teaching ability].

Are you an SfN member?

Join now and save on annual meeting registration. You'll also enjoy these member-only benefits:

- Abstract submission — only SfN members can submit abstracts for the annual meeting
- Lower registration rates and more housing choices for the annual meeting
- *The Journal of Neuroscience* — access *The Journal* online and receive a discounted subscription on the print version
- Free essential color charges for *The Journal of Neuroscience* manuscripts, when first and last authors are members
- Free online access to the *European Journal of Neuroscience*
- Premium services on NeuroJobs, SfN's online career resource
- Member newsletters, including *Neuroscience Quarterly* and *Nexus*

If you are not a member or let your membership lapse, there's never been a better time to join or renew. Visit www.sfn.org/joinnow and start receiving your member benefits today.

The #1 Cited Journal in Neuroscience*

Read *The Journal of Neuroscience* every week to keep up on what's happening in the field.

- The number one cited journal in neuroscience
- The most neuroscience articles published each year — nearly 1,500 in 2008
- Impact factor 7.452
- Published 50 times a year
