

The Journal of Neuroscience

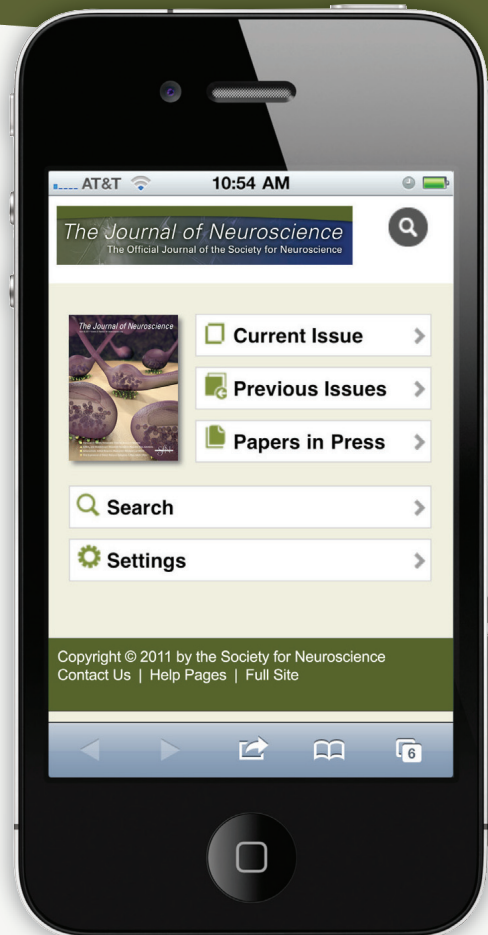

The Official Journal of the Society for Neuroscience

Launching in Spring 2012

The Journal of Neuroscience comes to Mobile Web

Access all of your journal resources wherever you go

- *The Journal of Neuroscience* will soon be available for comprehensive and universal mobile access
- Gain quick access to *The Journal* articles, table of contents, and the features you have come to expect from the premier journal in the field
- Connect to *The Journal* from virtually any mobile device, anywhere a web connection is available

LAMBDA DG-4/DG-5 PLUS

High Speed Wavelength Switcher

This complete illumination system with improved digital servo technology allows 30% greater light output and switching times of up to 0.5msec. The unique optical design uses modern interference filters, providing integral blocking characteristics 1000 times better than typical monochromators.

FEATURES

- Complete system for wavelength switching
- Switches in 0.5msec
- Integral shuttering
- Integral neutral density filtering
- Two outputs for monitoring filter position
- Turbo blanking
- Video sync pulsed ring buffer

California Institute of Technology Positions in Neuroscience

The California Institute of Technology invites applications for tenure-track professorial positions in the Division of Biology. Positions in Systems Neuroscience are open to investigators studying the neural mechanisms and circuit properties that underlie behavior. Positions in Cellular and Molecular Neuroscience are aimed at applicants whose research programs concern molecular and/or cellular aspects of physiology, behavior, or neural development. Successful applicants are expected to develop innovative research programs and should also have a commitment to undergraduate teaching. Preference will be given to candidates at the Assistant Professor level; however, consideration will also be given to more senior applicants. Appointment is contingent upon completion of Ph.D.

Please submit on-line application at <http://biology.caltech.edu/Positions> and include a brief cover letter, curriculum vitae, relevant publications, and a description of proposed research. Instructions will be given for submission of letters of reference when you apply on-line. Applications will be accepted until the positions are filled.

The California Institute of Technology is an Equal Opportunity/Affirmative Action Employer. Women, minorities, veterans, and disabled persons are encouraged to apply.

BASIC SCIENTIST - ASSISTANT, ASSOCIATE, or PROFESSOR DEPARTMENT OF OTOLARYNGOLOGY / HEAD AND NECK SURGERY STANFORD UNIVERSITY SCHOOL OF MEDICINE

The Department of OHNS (<http://med.stanford.edu/ohns/>) is recruiting for a basic science tenure-track faculty position. The successful candidate will be appointed at the level of assistant, associate, or full professor.

Scientists from a wide variety of disciplines are welcome to apply as long as their research relates to issues relevant to otolaryngology. A few illustrative fields include developmental biology, genetics, molecular and cellular biology, biophysics, cancer, auditory physiology, voice physiology, auditory and vestibular prosthesis development, bioengineering, stem cell and gene therapy. Collaborations with academic clinicians is encouraged. The successful researcher will be part of an interdisciplinary and collaborative team in a lab close to Stanford campus with ample opportunity for interaction with a broad spectrum of scientists including world-class programs in neuroscience, genetics, biomedical engineering, and bioinformatics, to name a few.

Resources available include substantial funds for equipment acquisition and program initiation, as well as appropriate laboratory facilities.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women and members of minority groups, as well as others who would bring additional dimensions to the university's research, teaching and clinical missions.

Letters of inquiry and curriculum vitae as well as the names and addresses of five references should be sent to:

Stefan Heller, PhD - Chair of Basic Science Search Committee
Department of Otolaryngology - Head & Neck Surgery
801 Welch Road, Stanford, CA 94305-5739
sheller@ohns.stanford.edu

GIVE TO THE FRIENDS OF SfN FUND

Support the next generation of neuroscientists through travel awards and other career development initiatives.

To inquire about specific initiatives, or to make a tax-deductible donation, visit www.sfn.org/supportsfn or e-mail: development@sfn.org.

Join the Conversation

NeurOnLine is a new, SfN members-only online community where you can share great science, network, forge collaborations, and keep in touch — anytime, anywhere — within a trusted forum. As with the SfN annual meeting and *The Journal of Neuroscience*, *NeurOnLine's* content and discussions will be generated *by* members, *for* members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, more than 41,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

NeurOnLine will help you advance *your* science and career on *your* schedule.
