FINE SCIENCE TOOLS

FINE SURGICAL INSTRUMENTS
FOR RESEARCH[™]

Quality surgical instruments as pure as gold.

Fine Science Tools has been shipping world-renowned surgical and microsurgical instruments globally since 1974. With offices and dealers throughout the world, FST conveys convenience, expedient and superb customer service with no boundaries.

Visit us at finescience.com to explore our complete product line, and to locate our offices and dealers around the world.

Become part of the world's largest organization of scientists and physicians devoted to understanding the brain and nervous system.

Join now and enjoy exclusive member benefits:

- Reduced fees and advanced registration for Neuroscience 2014
- Online subscription and reduced publication fees for *The Journal of Neuroscience*
- Abstract submission eligibility for the annual meeting
- Networking and scientific discussion on *NeurOnLine*
- Free online access to the *European Journal of Neuroscience*
- Premium career services through NeuroJobs
- And more!

**Director for the
Center for Innovation in Brain Science**

The University of Arizona seeks an accomplished scientist and leader in translational neuroscience to direct a new Center for Innovation in Brain Science. We seek an established neuroscientist with a strong record of extramural funding and research productivity who embraces a collaborative and inclusive approach to clinical and basic neuroscience research and education, and who has had experience building successful multidisciplinary programs. **Interested candidates should visit** <http://ahsc.arizona.edu/news/director-center-innovation-brain-science> for details and application instructions.

As an equal opportunity and affirmative action employer, the University of Arizona recognizes the power of a diverse community and encourages applications from individuals with varied experiences and backgrounds.

The University of Arizona is a committed Equal Opportunity/Affirmative Action Institution. Women, minorities, veterans and individuals with disabilities are encouraged to apply.

The Department of Psychology at New Mexico Tech seeks an applicant for a position as a tenure-track assistant professor with expertise in Neuroscience beginning January or August 2015. The successful candidate must have a PhD in Neuroscience, Psychology or a related field.

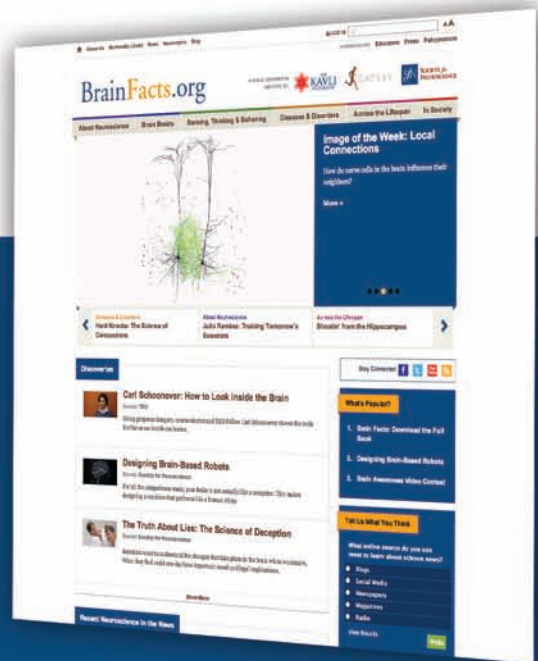

The candidate must be qualified to teach Psychology and upper-division courses in Neuroscience. Other courses could include existing offerings in Psychopharmacology, Biology and in the candidates' areas of expertise. Some of these courses will be cross-listed as Psychology and Biology classes. The candidate will also be involved in our interdisciplinary Biomedical Science and Bioengineering programs.

The candidate will establish a research program in any area of Neuroscience, which may include Bioengineering. Collaboration with the Biology department and other departments at NMT is expected, as is the involvement of students in research.

Applicants should submit a letter of interest, resume, a statement of teaching and research interests, a representative publication (or URL) and three references to Neuroscientist Search, Human Resources, 801 Leroy Place, Brown Hall, Box 090, Socorro, NM 87801. College transcripts will be required if selected to interview. The selection process will begin immediately and continue until the position is filled.

Share the wonders of the brain and mind with BrainFacts.org

A PUBLIC INFORMATION INITIATIVE OF:

Seeking resources to communicate
with the public about neuroscience?
Educating others through Brain
Awareness activities?

BrainFacts.org can help you
communicate how the brain works.

Explore *BrainFacts.org* for easy-to-use, accessible resources including:

- Information about hundreds of diseases and disorders
- Concepts about brain function
- Educational tools
- Multimedia tools and a social media community
- Interviews and discussions with leading researchers; and more

Visit *BrainFacts.org*

The Journal of Neuroscience

The Official Journal of the Society for Neuroscience

The Journal of Neuroscience is mobile!

Access all of your journal resources wherever you go

- *The Journal of Neuroscience* is available for comprehensive and universal mobile access.
- Gain quick access to *The Journal* articles, table of contents, and the features you have come to expect from the premier journal in the field
- Connect to *The Journal* from virtually any mobile device, anywhere a web connection is available

NEUROSCIENCE**

Who's on NeurOnline?

Join the Conversation

NeurOnline is an SfN members-only online community where you can share great science, network, forge collaborations, and keep in touch—anytime, anywhere—within a trusted forum. As with the SfN annual meeting and *The Journal of Neuroscience*, *NeurOnline*'s content and discussions will be generated *by* members, *for* members.

- Discuss emerging scientific findings
- Explore new tools and techniques
- Network year-round within the global community, nearly 42,000 members worldwide
- Share experiences and receive or provide mentoring on different career paths, stages, and challenges
- Get involved in public outreach, from Brain Awareness and science teaching to advocacy

NeurOnline will help you advance *your* science and career on *your* schedule.

Are you still injecting?

Focus on your research instead, and let ALZET® Osmotic Pumps do the dosing for you.

ALZET pumps are a superior alternative to repetitive injections and other dosing methods that require frequent animal handling. These fully implantable pumps provide continuous and precise administration, for up to 6 weeks with a single pump, to unrestrained lab animals as small as mice. ALZET pumps are economical and easy to use by research personnel. Connection to a catheter enables direct delivery to vessels, cerebral ventricles, and other target sites. Learn more at alzet.com.

Now available: iPRECIO Pumps

- Programmable
- Refillable
- Implantable
- Small size for mice and rats
