Correction: Btsh et al., Mapping the Binding Site of TRPV1 on AKAP79: Implications for Inflammatory Hyperalgesia

In the article “Mapping the Binding Site of TRPV1 on AKAP79: Implications for Inflammatory Hyperalgesia” by Joan Btsh, Michael J.M. Fischer, Katherine Stott, and Peter A. McNaughton, which appeared on pages 9184–9193 of the May 22, 2013 issue, the Figure 5C legend should include the following: “Note that the example trace on left is from the same experiment as shown in Figure 4C of Fischer et al. (2013). Control data points (black) include results of control experiments shown in Figure 4B of Fischer et al. (2013).” The Figure 7A legend should include the following: “Note that control data (Saline + Saline and Saline + Carrageenan) are identical to control data shown in Figure 6C of Fischer et al. (2013).”
