

Corrections

Correction: Oemisch et al., Interareal Spike-Train Correlations of Anterior Cingulate and Dorsal Prefrontal Cortex during Attention Shifts

In the article “Interareal Spike-Train Correlations of Anterior Cingulate and Dorsal Prefrontal Cortex during Attention Shifts” by Mariann Oemisch, Stephanie Westendorff, Stefan Everling, and Thilo Womelsdorf, which appeared on pages 13076–13089 in the September 23, 2015 issue, the authors regret an error in Figure 2*B*, where the *y*-axis has been accidentally mislabeled. The *y*-axis representing the average correlation of spiking activity should range from -0.01 to 0.02 , instead of the falsely represented range of -0.001 to 0.002 . All other figures are correctly displayed. This error does not affect any conclusions or interpretations of the paper. The correct Figure 2 is shown below.

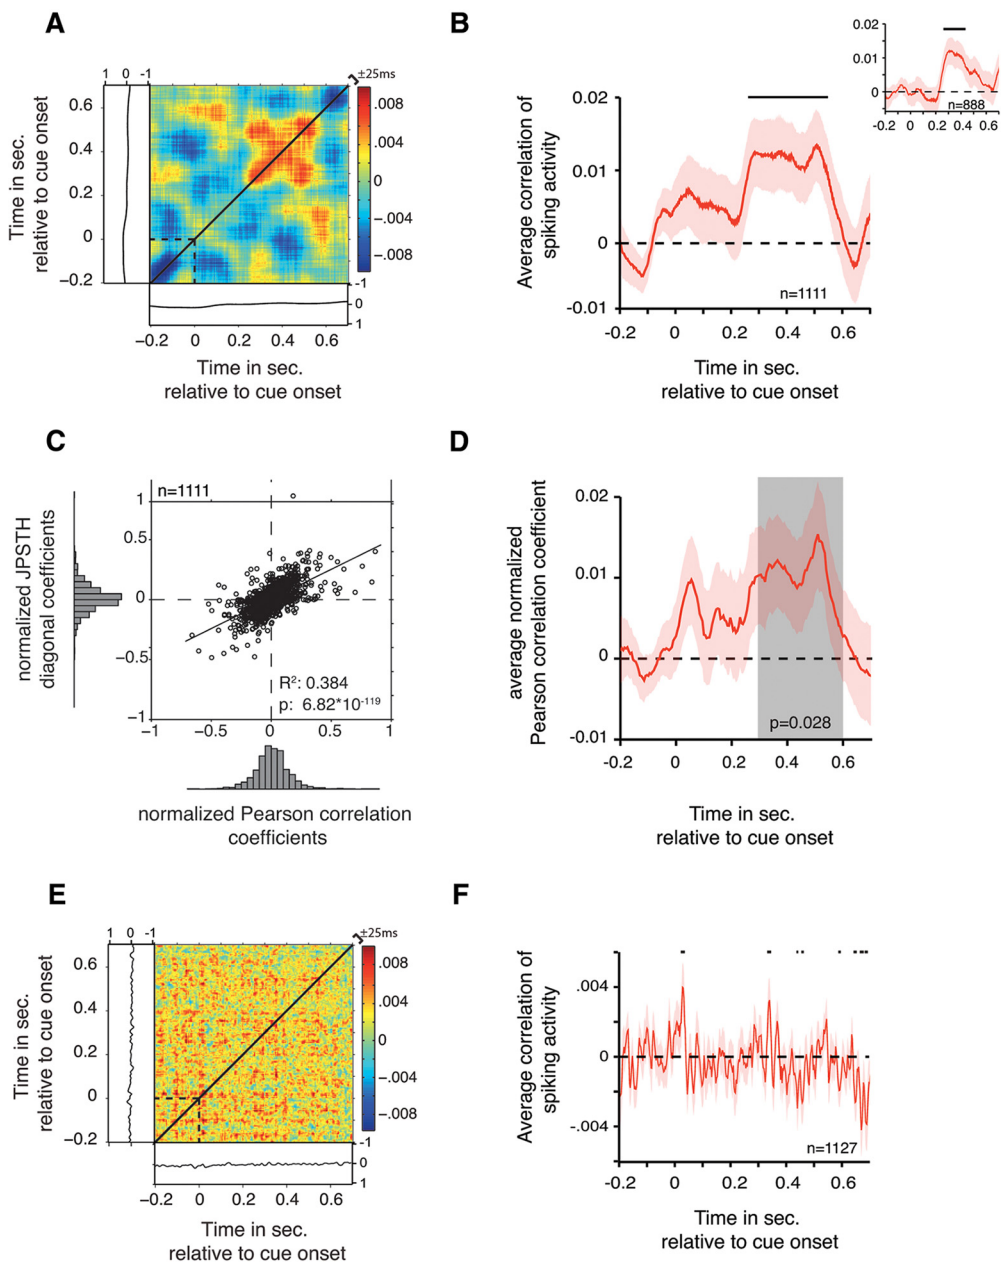

Figure 2.
