Need 1 more reason to stop injecting?

One Remarkably Simple Technology

Simplify your research with automatic and continuous dosing. **ALZET® Osmotic Pumps** are a superior alternative to repetitive injections and other dosing methods that require frequent animal handling. These fully implantable pumps provide continuous and precise administration of test agents, in animals as small as mice, for up to six weeks.

Want to see how ALZET Osmotic pumps are used in your field? Contact us to request references from our 16,000+ publication collection.
