The UCSF Department of Anesthesia and Perioperative Care is accepting applications from physician-scientists interested in basic, translational and clinical research training opportunities in areas that are relevant to anesthesiology and the perioperative sciences. Candidates are invited to apply for a 2-year postdoctoral research fellowship funded by the NIH. Emphasis on:

- Critical Care
- Genomics, Outcomes Research and Bioinformatics
- Neuroscience, Pain and Addiction
- Vascular Biology and Bioengineering

Program Features:
- Well-established departmental research training program (Pathway to Scientific Independence) that incorporates longstanding NIH T32 postdoctoral fellowship
- The benefits of training in the world-renowned research environment of UCSF
- Hands-on research with an experienced faculty mentor and team of advisors
- Training activities span grant writing, ethics, biostatistics, etc.

Fellow Requirements
- MD or MD/PhD, with clinical focuses in anesthesiology, critical care and pain medicine
- U.S. citizens, non-citizen nationals or permanent residents only

UCSF has an exceptional commitment to excellence and diversity. We welcome all qualified applications and particularly encourage applications from members of underrepresented groups in the sciences, including underrepresented minorities, veterans, and individuals with disabilities. UCSF offers reasonable accommodations for qualified individuals with disabilities. If you are a person with a disability who would like to discuss potential accommodations or engage in a confidential conversation, please contact Disability Management Services at 415-476-2621.

The History of Neuroscience in Autobiography Series
Edited by Larry R. Squire
Outstanding neuroscientists tell the stories of their scientific work in this fascinating series of autobiographical essays. Within their writings, they discuss major events that shaped their discoveries and their influences, as well as people who inspired them and helped shape their careers as neuroscientists.
