Advancing the Field of Research

Scissors • Retractors • Magnifiers • Probes & Hooks • Bone Instruments • Animal Identification
Hemostats • Forceps • Surgical & Laboratory Equipment • Feeding Needles • Spatulae & Spoons
Wound Closure • Surgical Plates • Instrument Care & Sterilization • Rongeurs • Scalpels & Knives
Clamps • Pins & Holders • Needles & Needle Holders • Student Quality Instruments & Much More
Become part of the world’s largest organization of scientists and physicians devoted to understanding the brain and nervous system.

Join today to enjoy these exclusive member benefits:

• Reduced fees and advanced registration for Neuroscience 2017
• Online subscription and reduced publication fees for *JNeurosci*
• Abstract submission eligibility for the annual meeting
• Networking, webinars, and scientific discussion on Neuronline
• Free online access to the *European Journal of Neuroscience*
• Premium online career services through NeuroJobs
• Networking, webinars, and scientific discussion on Neuronline
• And more!

Neuroinflammation: connecting brain disorders to the immune system

BioLegend develops innovative reagents to support research within multiple neuroscience areas with a great focus on the fields of neurodegeneration and neuroinflammation. We offer a wide selection of high quality and specificity antibodies with utility in multiple applications such as IHC, IF, WB, and Flow Cytometry. Choose from a variety of targets covering:

- Immune cells
- Signaling molecules
- Complement system
