NEW! Low-Noise Ultra-Fast Digital Patch Clamp Amplifier System

- High bandwidth for fastest signal characterization
- Single-channel and whole-cell patch clamp recordings
- Digital compensation circuitry for precision and signal fidelity
- Quick and easy setup
- Bundled SutterPatch® software built on Igor Pro platform

The next generation Digital Patch Clamp Amplifier System. Combining high-speed, high-resolution digital processing, precision A/D circuitry, integrated data acquisition and bundled SutterPatch® software, the dPatch system provides capabilities previously out of reach for the electrophysiologist. Available in either a single- or double-headstage configuration, the dPatch meets the requirements of today’s experiments and anticipates the demands of tomorrow’s.

Automatic Membership Renewal Now Available

Sign Up for Automatic Membership Renewal

- Save time — Lessen your to-do list
- Go green — Eliminate paper invoices and their impact on the environment
- Uninterrupted membership — Never miss an issue of The Journal of Neuroscience or any of your valuable member benefits
- Bonus Day — Ensure access to your choice of prime housing for the annual meeting before the opening of advance member registration
- Support the field — Know your dues enhance professional development initiatives, public outreach, advocacy, and more

Sign up through “My SfN” at SfN.org
Share in the **joy of science** with your global neuroscience community.

The Society for Neuroscience (SfN) provides exceptional value to researchers and clinicians at all career stages. Year-round member benefits include:

- Scientific Journals
- Virtual Conferences
- Advocacy Activities
- Professional Development
- Award Opportunities

*Plus, members can save up to $445 on annual meeting registration.*

**Don’t miss out! Join or renew with SfN today — SfN.org/membership**

“One of the very special things about SfN is being a part of this large society, getting these benefits of publishing in journals like *JNeurosci*, sponsoring students, and also just networking and reconnecting with people in neuroscience.”

— Jayeeta Basu, PhD, SfN member

A PUBLIC INFORMATION INITIATIVE OF:
SUPPORT NEUROSCIENCE
WITH A GIFT TO THE FRIENDS OF SfN FUND

As the field’s leading professional organization, SfN promotes the importance of neuroscience and strengthens the field worldwide.

Donations to the Friends of SfN Fund support ongoing and new global efforts that:

- Create opportunities to share research with scientists around the world
- Provide resources and professional development for every career stage
- Promote public awareness and engagement with neuroscience
- Advocate for funding and policies that support health and science

Visit SfN.org/donate or contact development@sfn.org / 202-962-4057 to learn more about supporting SfN.

Society for Neuroscience is a 501(c)(3) nonprofit organization registered with the Internal Revenue Service and donations are tax-deductible.

ALZET® Osmotic Pumps are small infusion pumps inserted at the beginning of your study and then, that’s it. There’s no dosing schedule. No repeated injections. Just a continuous, predictable release of your test agent for the entire study. Days. Nights. Even weekends. Anywhere from one day to six weeks. With no external connections to monitor and less need for handling, it’s less stress for you and your lab animals. Learn more about ALZET Osmotic Pumps and just how needless injections can be at alzet.com/NoMoreNeedles.
