DIRECTOR OF NEUROPATHOLOGY
Lifespan Academic Medical Center
(The Miriam and the Rhode Island Hospitals)

The Department of Pathology and Laboratory Medicine at The Miriam and the Rhode Island Hospitals is seeking a neuropathologist to join the faculty of the Lifespan Academic Medical Center and the Warren Alpert School of Medicine of Brown University. The Miriam Hospital/Rhode Island Hospital is an EEO/AA employer and encourages applications from minorities, women and protected persons.

The successful candidate must qualify for a full-time medical faculty position at the rank of Associate Professor or Professor in the Department of Pathology and Laboratory Medicine at the University. This requires a national reputation and scholarly achievements appropriate for the academic rank. Minimum requirements include: board certification in Anatomic Pathology and Neuropathology by the American Board of Pathology (or Canadian equivalent), or equivalent credentials. Participation in autopsy and surgical neuropathology, including frozen section interpretation is required. The candidate should be familiar with histochemistry, immunocytochemistry, electron microscopy, and molecular methods for neurological diagnosis. She/he will be expected to engage in medical student, resident, and/or fellowship teaching. The director of neuropathology is also expected to develop and maintain a research program in a field related to neuropathology; there is tremendous potential for collaboration with the faculty of the Robert J and Kathy D Carney Institute for Brain Science, including strong collaborative research programs in neuroscience, neurodegenerative disease, or behavioral sciences. Candidates should have experience in a university hospital or comparable institution with an active surgical pathology, neuropathology, and autopsy service and a commitment to teaching and research.

The Miriam Hospital/Rhode Island Hospital is an EEO/AA employer and encourages applications from minorities, women and protected persons.

Review of applications will begin immediately and continue until a candidate is hired or the search is closed.

Please apply through Interfolio System at https://secure.interfolio.com/apply/58944.
