This Week in The Journal

Editorial

End of a [Paper] Era
Marina R. Picciotto

Journal Club

Intracortical Localization of a Promising Pain Biomarker
Christopher Joseph

Research Articles

CELLULAR/MOLECULAR

Loss of TREM2 Confers Resilience to Synaptic and Cognitive Impairment in Aged Mice
Wenhui Qu and Ling Li

Postsynaptic Serine Racemase Regulates NMDA Receptor Function
Jonathan M. Wong, Oluwarotimi O. Folorunso, Eden V. Barragan, Cristina Berciu, Theresa L. Harvey, Joseph T. Coyle, Darrick T. Balu, and John A. Gray

CaMKIIα-Positive Interneurons Identified via a microRNA-Based Viral Gene Targeting Strategy
Marianna K. Keaveney, Bahar Rahsepar, Hua-an Tseng, Fernando R. Fernandez, Rebecca A. Mount, Tina Ta, John A. White, Jim Berg, and Xue Han

FGF13 Is Required for Histamine-Induced Itch Sensation by Interaction with Nav1.7
Fei Dong, Haixiang Shi, Liu Yang, Huaqing Xue, Manyi Wei, Yan-Qing Zhong, Lan Bao, and Xu Zhang

DEVELOPMENT/PLASTICITY/REPAIR

Macrophage-Derived Vascular Endothelial Growth Factor-A Is Integral to Neuromuscular Junction Reinnervation after Nerve Injury

SYSTEMS/CIRCUITS

Dopamine Signaling in Wake-Promoting Clock Neurons Is Not Required for the Normal Regulation of Sleep in Drosophila
Florencia Fernandez-Chiappe, Christiane Hermann-Luibl, Alina Peteranderl, Nils Reinhard, Pingkalai R. Senthilan, Marie Hieke, Mareike Selcho, Taishi Yoshii, Orie T. Shafer, Nara I. Muraro, and Charlotte Helfrich-Förster
Complementary Inhibitory Weight Profiles Emerge from Plasticity and Allow Flexible Switching of Receptive Fields
Everton J. Agnes, Andrea I. Luppi, and Tim P. Vogels

Visual Stimulus Content in V4 Is Conveyed by Gamma-Rhythmic Information Packages
Dmitriy Lisitsyn, Iris Grothe, Andreas K. Kreiter, and Udo A. Ernst

Spontaneous Network Coupling Enables Efficient Task Performance without Local Task-Induced Activations
Leslie Allaman, Anaïs Mottaz, Andreas Kleinschmidt, and Adrian G. Guggisberg

Layer- and Cell Type-Specific Response Properties of Gustatory Cortex Neurons in Awake Mice
Gulce Nazli Dikecligil, Dustin M. Graham, Il Memming Park, and Alfredo Fontanini

Mapping the Dynamic Recruitment of Spinal Neurons during Fictive Locomotion
Vladimir Rancic, Klaus Ballanyi, and Simon Gosgnach

Activation of Granule Cell Interneurons by Two Divergent Local Circuit Pathways in the Rat Olfactory Bulb
R. Todd Pressler and Ben W. Strowbridge

Converging Evidence for Differential Specialization and Plasticity of Language Systems
Kshipra Gurunandan, Jaione Arnaez-Telleria, Manuel Carreiras, and Pedro M. Paz-Alonso

Metaplasticity in the Ventral Pallidum as a Potential Marker for the Propensity to Gain Weight in Chronic High-Calorie Diet
Shani Gendelis, Dorrit Inbar, Kineret Inbar, Shanee Mesner, and Yonatan M. Kupchik

Self-Controlled Choice Arises from Dynamic Prefrontal Signals That Enable Future Anticipation
Daiki Tanaka, Ryuta Aoki, Shinsuke Suzuki, Masaki Takeda, Kiyoshi Nakahara, and Koji Jimura

Astrocyte-Derived Estrogen Regulates Reactive Astrogliosis and is Neuroprotective following Ischemic Brain Injury

Cell Type-Specific Oxidative Stress Genomic Signatures in the Globus Pallidus of Dopamine-Depleted Mice
Alyssa J. Lawler, Ashley R. Brown, Rachel S. Bouchard, Noelle Toong, Yeonju Kim, Nitinram Velraj, Grant Fox, Michael Kleyman, Byungsoo Kang, Aryn H. Gittis, and Andreas R. Pfenning

Erratum: The article “Two Routes to Incidental Memory under Arousal: Dopamine and Norepinephrine,” by John Thorp, David Clewett, and Monika Riegel, appeared on pages 1790–1792 of the February 26, 2020 issue. An erratum for this article appear on page 9784.
Persons interested in becoming members of the Society for Neuroscience should contact the Membership Department at membership@sfn.org or 202-962-4911.

For current submission policies and manuscript preparation guidelines, authors should refer to our Information for Authors at https://www.jneurosci.org/content/information-authors.

Manuscripts should be submitted online at https://jneurosci.msubmit.net. Please contact the Central Office with any questions at jn@sfn.org or 202-962-4000.
