

# Erratum

## Erratum: Palenciano et al., “Representational Organization of Novel Task Sets during Proactive Encoding”

In the article “Representational Organization of Novel Task Sets during Proactive Encoding” by Ana F. Palenciano, Carlos González-García, Juan E. Arco, Luiz Pessoa, and Maria Ruz, which appeared on pages 8386–8397 of the October 16, 2019 issue, the legend within Figure 3 contained a misprint. The labels for “Across-Dim.” and “Within-Dim.” were switched. The same mistake applies for “Sequential” and “Single” labels. These errors affected only the figure and not the results provided in the *Behavioral results* section of the article. Consequently, it does not affect the conclusions of the study. The authors regret this error. The figure has been corrected in the online version and a corrected version of Figure 3 is displayed below.

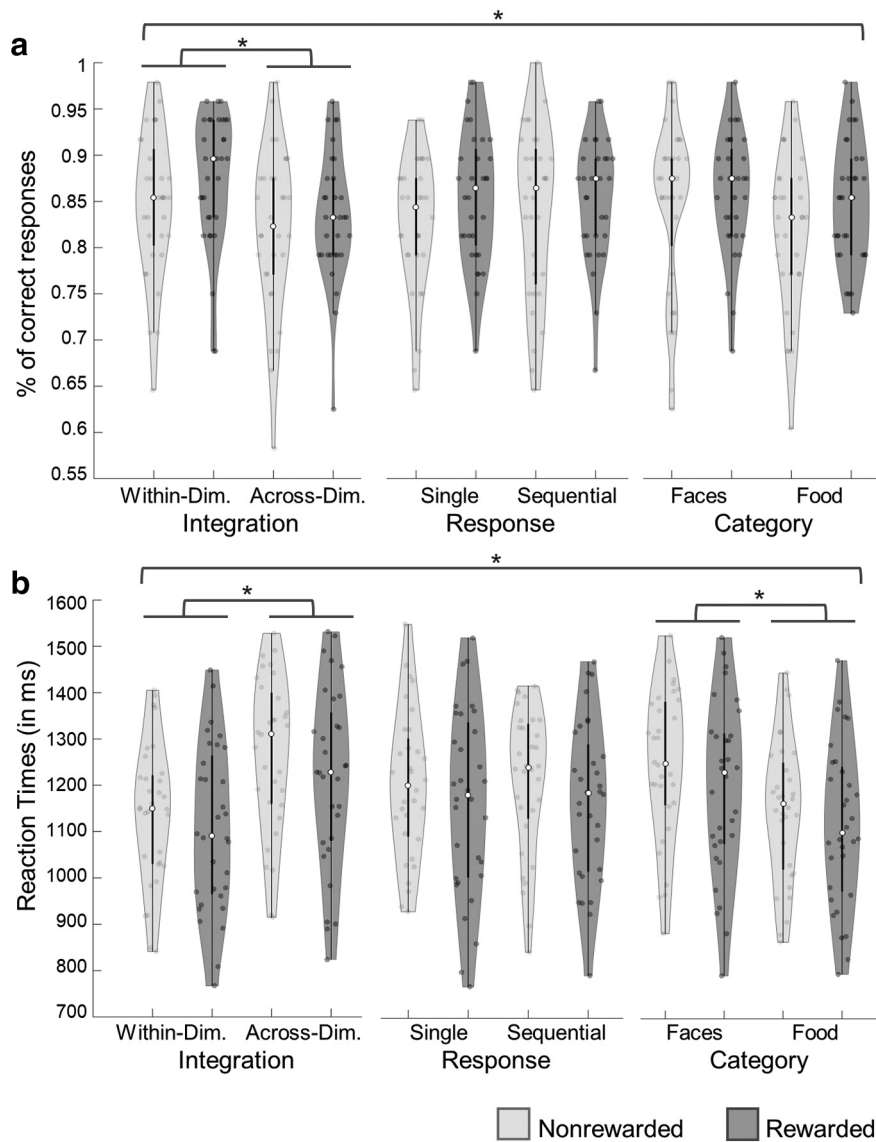

Figure 3.
