Author-Initiated Retraction: Kobelt et al., “Tracking Age Differences in Neural Distinctiveness across Representational Levels”

At the request of the authors, *The Journal of Neuroscience* is retracting “Tracking Age Differences in Neural Distinctiveness across Representational Levels,” by Malte Kobelt, Verena R. Sommer, Attila Keresztes, Markus Werkle-Bergner, and Myriam C. Sander, which appeared on pages 3499–3511 of the April 14, 2021 issue. The authors note, “During follow-up analyses for a different manuscript, we recognized a serious error in our analysis pipeline that raises doubts about the results presented in this paper. Unfortunately, the results presented in the manuscript above do not hold after fixing the error.”
